William Smiley Owner

Auctioneer's comments: William "Bill" Smiley is an absolute "craftsman" of the highest caliber. Originally from California, he built high performance engines for the race car crowd for decades. Whether it was "Stroker Chevy's" or 600 hp Volkswagen engines, if you wanted to be in the winner's circle "Bill Smiley" was your man. Bill has since retired and due to doctors orders he will no longer be toiling out in the shop, so an abundance of clean high quality shop fixtures and tools will be sold. In addition, Bill built custom fish houses, car haulers and 4 wheel drives, these also will be offered to the public.
